Omega EFA Advanced Oil for Dogs, Cats, Puppies and Kittens

236ml Omega 3 Oil – can be added daily to food. (Natural Fish Flavour) - Suitable for animals from 4 months of age

- During the winter months dogs and cats feel the cold more and the older they are the more it affects them
- In older animals joints become stiff and sore which impacts on overall wellness.
- Heating can dry the skin in young and old alike, impacting on itchiness and coat condition
- Broadreach Nature's Omega EFA Advanced oil for skin, coat and joint conditioning helps pets throughout the colder months supporting overall health, soothing skin and reducing inflammatory disorders.
- Veterinary Strength Omega EFA Advanced Oil contains high quantities of Marine Lipid Concentrate Supplying: EPA / DHA - Long chain Omega-3 fatty acids.
- EPA and DHA are important Omega-3 fatty acids that play a vital role in the inflammatory response and skin conditions and in helping to ease sore joints during the colder months. Lecithin emulsifies the fatty acids aiding in absorption across the gut wall, meaning all the best ingredients are absorbed by the body.
- Rosemary and Vitamin E protect the essential fatty acids from oxidation.
- Biotin aids in skin health and Zinc assists in immunity and the functioning of skin. A healthy skin and coat will make sure your pet is well protected against all of the elements.
- Omega EFA advanced oil is also hypoallergenic.

AIDS: Skin and Coat Conditioner, Inflammatory disease - including Atopy, Osteoarthritis, Autoimmune disease, Cardiovascular Disease, Kidney Disease, Cognitive Function, Vision

COMPOSITION: Marine Lipid Concentrate Supplying: EPA / DHA, Lecithin, Zinc, Biotin and Rosemary Extract

5-Star review Omega EFA Advanced Oil

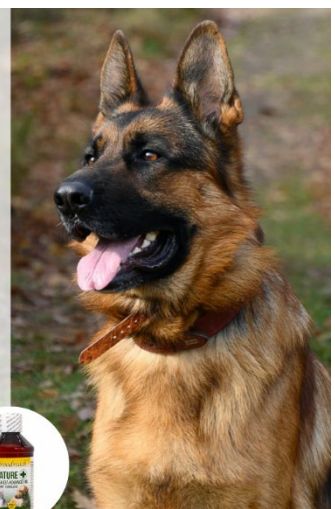

"My Border Collie Murphy has been using this product for quite a while now and the improvement is incredible! He's not itching anymore and his fur is beginning to thicken up again. It's easy to use and really does work a treat"

Skin Care 5 Star Review

"I ordered the Skin & Coat Oil which I started using immediately. After a couple of weeks' use, the condition of Sasha's coat had improved but she was still scratching and nibbling furiously at her skin. I contacted Anne for the first time and was pleasantly impressed at how approachable and understanding she was to Sasha's problem...we have discovered is an intolerance to wheat and anything relating to grain. Now on the right diet and with the additional supplements, Sasha looks amazing"
