

BROADREACH NATURE

Senior Care 7+ for Dogs and Cats

90 capsules – can be given whole or opened and sprinkled into food (neutral flavour) - suitable for dogs and cats from 7 years of age

- It is really important to look after older pets during the winter months.
- Joints and brain function can be affected by the cold and dark conditions that winter brings.
- This high quality supplement is designed to offer cognitive support and joint care through a specialist formulation of ingredients.

Key ingredients include:

- Choline, a component of several major cell membrane lipids that are critical for normal cell membrane structure and function.
- Withania somnifera (Ashwaganda) an anti-inflammatory, antioxidant and adaptogen working synergistically with many other herbs to reduce muscle fatigue, inflammation, and to support healthy joints and enhance memory and improve cognition.
- Inositol (B8) supports cognitive function. Saccharomyces cerevisiae (SC) is most beneficial to geriatric dogs, or those with inflammatory conditions because these populations may have unstable or undesirable gut microbiota populations or compromised immune systems.
- Turmeric, well known and researched for its anti inflammatory properties supports healthy joints liver health and aids digestion. It is also a powerful antioxidant showing promising results for promoting healthy brain activity in aging dogs as it improves the memory process in aging animals.
- Ginkgo biloba is a neuro-protectant helping to reduce the effects of free radicals and beta amyloid on neurons. Ginkgo may also help increase blood flow and oxygen to the brain. Pyridoxine (Vitamin B6) is a co-enzyme for the synthesis of the neurotransmitters serotonin, noradrenalin and dopamine.

AIDS: Joint flexibility and mobility, memory and cognitive function, excess cholesterol, heart issues and digestion.

COMPOSITION: per capsule: Lecithin (Sunflower) (Phosphatidylcholine 23%)125mg, Ashwagandha Root (Withania somnifera) 100mg, Lyside NutriOptimum (Saccharomyces cerevisiae) 90mg, Turmeric Root Powder (95% Concentrate) 50mg, Inositol 40mg Vitamin B-5 (Calcium Pantothenate) 10mg, Vitamin B-1 (Thiamine) 5mg, Vitamin B-2 (Riboflavin) 5mg, Vitamin B-6 (Pyridoxine) 5mg, Vitamin B-12 (Cyanocobalamin) 10mcg, Ginkgo Biloba Extract 1mg, Black pepper extract (95% Piperine) (Piper nigrum) 500ug

5-star review for our Senior Care!

"Amazing, amazing product. My 9 year old lab is like a puppy again! Virtually instant improvements in his energy and alertness. Brilliant."

- Lindsey K

Customer Feedback!

"I bought these capsules to try to improve Jacks energy levels as he is getting on in years now so was only managing short walks. After using them for a month I have noticed so many changes in him...He had lost interest in everything so to see him getting the most out of life again is so heartwarming to see. Thank you so much Broadreach. I've got my boy back! "

Jack's owner, Susan Mary

Senior Care 5 Star Review

"She seems more lively, and takes far more interest in everything. I do feel that this is almost like giving her another year of her life! This has certainly made my dog feel closer to her puppy years, then her last years."

- Lauren R

5 STAR REVIEW

"My two elderly cats have various ailments and don't like the cold weather. I have been sprinkling a little of this in their food and the good news is they have eaten it up without suspicion. These capsules are full of good ingredients so I am sure they must be doing my cats some good. It won't turn them back into kittens but if it helps make their movements a little bit easier then I am all for it. I am happy to recommend these capsules , and I believe my cats would too if they could talk."

- Robert
