

EXCEPTIONAL ANTIMICROBIAL EFFICACY IN VETERINARY SETTINGS

DEVELOPED
FOR
VETERINARY
USE

At Byotrol, we understand the complex environmental and microbiological challenges that veterinary nurses face when trying to implement effective biosecurity measures in practice every day.

Our partners in veterinary clinics, referral centres and hospitals have relied upon our market-leading ANIGENE brand for decades to protect animals and the staff who care for them, from infection. Stocked by all leading wholesalers, ANIGENE helps your practice promote the recovery and well-being of the animals in your care.

Developed in-house at Byotrol, ANIGENE's unique formulation uses a blend of active ingredients, resulting in exceptional performance with faster contact times, and less risk of antimicrobial resistance.

Byotrol is committed to reducing the impact of our products on the environment. ANIGENE products benefit from recycled packaging which is recyclable again after use. We encourage the safe, responsible, and sustainable use of disinfectants, which improve the health of people, animals, and the environment.

**Tested to veterinary
standards**

**Biodegradable
ingredients**

**PHMB, ammonia
& phenol-free**

**No rinsing
required***

Powered by

ANIGENE Professional Surface Disinfectant Cleaners are ideal for use in environments where the health and well-being of animals is of paramount importance.

Byotrol provides end-users with CPD-accredited training resources designed to improve biosecurity, health, and safety in veterinary settings. Visit Byotrol.com/register for access to our training materials and workplace posters.

Flexible dilution rates

ANIGENE can be used at varying dilutions, for a more flexible solution, allowing customer sites to tailor dilution rates to their specific challenges. Please check the label on pack and dilution training resources for more details.

Effective outbreak management

ANIGENE** is DEFRA Approved for:

- General Orders
- Poultry Orders

EXCEPTIONAL ANTIMICROBIAL ACTIVITY

Bactericidal, yeasticidal, virucidal and fungicidal.

Effective against a wide range of animal-specific pathogens including Avian Influenza (H5N1), Bovine Enterovirus, Canine parvovirus, FIV, Herpes Simplex virus, E. coli, Leptospira, Salmonella typhimurium, Trichophyton mentagrophytes, Campylobacter jejuni, Bordetella bronchiseptica, Brucella and many more.

ANIGENE is tested to the following mandatory European veterinary (PT3) test standards:

- EN 1656 (bactericidal)
- EN 1657 (yeasticidal)
- EN 1657 (fungicidal)
- EN 14349 (bactericidal)
- EN 16438 (yeasticidal)
- EN 16438 (fungicidal)
- EN 14675 (virucidal)

Additional standards:

- EN 13610 (bacteriophages)
- EN 13623 (legionella)

Added benefits:

- Available in 1L, 5L, 20L and 1000L formats
- Manufactured in the UK to strict quality standards
- Economical dilution rates from 1%
- Tested and effective for both indoor and outdoor use
- Approved for notifiable outbreaks by Defra, DAERA and DAFM
- Suitable for disinfecting animal enclosures, synthetic grass and more
- Biodegradable, low foam formulation is compatible with septic tanks and bio-bubbles
- Non-corrosive in use and compatible with wide range of materials
- No-rinse formulation reduces water consumption and minimises waste
- Range utilises post-consumer recycled packaging
- Complies with relevant CLP, REACH and biocidal regulations
- CPD-accredited training resources available to promote correct use and compliance
- PHMB, ammonia and phenol-free

Available fragrances:

Un-fragranced

Citrus

Lavender

Dill

Apple

Use biocides safely. Always read the label and product information before use. Dilution rates vary, please read label on pack carefully. Contact Byotrol for further information.

*ANIGENE should be rinsed off food contact surfaces, food/water bowls and toys.

**ANIGENE Dill, Citrus and Un-fragranced variants are DEFRA approved.
