

5 TOP TIPS: Autumn & winter grooming

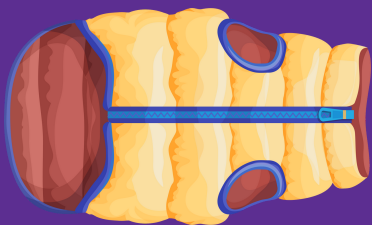

#1. Regular grooming

Make sure to brush your pet's fur frequently to prevent matting and tangling.

#2. Keep towels handy

Keep a towel handy to wipe your pet's paws and belly after walks to remove mud and dirt. Consider using paw wipes or a paw-cleaning solution.

#3. Winter coat

A waterproof coat is a great option to help keep your pet dry and clean during walks.

#4. Trim around paws

Trim your pet's fur around their feet and between their paw pads to prevent the build-up of mud and debris which can lead to irritation or infection.

#5 Bath time

How often you need to bathe your pet depends on their breed, age and any health conditions, but only use lukewarm water and a pet-friendly shampoo.
